LEARNING / SOCIAL BEHAVIOR

S = Satisfactory
 P = Making progress
 I = Needs to improve

We believe that these behaviors contribute to student learning and are considered an integral part of our teaching. We do not expect that all children will demonstrate consistency at all times, but we do emphasize continual progress for the student in demonstrating the behavior on a regular basis. Your child's progress is indicated according to the KEY to the left.

Demonstrates responsibility for own learning.
 1. Shows interest and is involved in learning.
 2. Attends to the task at hand.
 3. Completes tasks independently.

Fall	Winter	Spring

Demonstrates self-discipline.
 8. Follows rules.
 9. Demonstrates self control.
 10. Uses time wisely.

Fall	Winter	Spring

Responds to teacher-directed activities.

4. Listens attentively.
 5. Participates constructively in discussions.
 6. Participates constructively in activities.
 7. Follows directions.

Fall	Winter	Spring

Interacts positively with peers and adults.

11. Respects the rights of others.
 12. Works cooperatively with others.
 13. Interacts positively with others.
 14. Solves problems constructively.

Fall	Winter	Spring

Puts forth effort.

15. Perseveres even when tasks are difficult.
 16. Willing to take risks and try new things.
 17. Chooses and accepts tasks that challenge abilities.

SOCIAL STUDIES

The Michigan Social Studies Standards identify content benchmarks for each grade level in four areas: geography, economics, history and civics. In kindergarten, students focus on themselves and their world. They:

- depict what they look like, care about, feel and can do that makes them special;
- learn about making friends, making choices that help them get along with others and effective ways of solving problems with others;
- investigate the concept of a neighborhood and their place in it;
- explore basic maps that show where they live;
- learn about similarities of people's lives around the world;
- learn about recycling and ways they can help take care of the Earth;

To achieve these benchmarks, students begin to use the processes of a social scientist. They:

	Fall	Winter	Spring	
 S = Satisfactory P = Making progress I = Needs to improve	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Understand ideas studied
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Complete activities
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Take part in discussions
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop thinking and study skills relevant to social studies

Conflict Management: Students at every grade level are taught skills for preventing, managing, and peacefully resolving conflicts. If students are given opportunities to practice these skills in real life school situations, they become empowered to take responsibility for resolving the conflicts that naturally occur in their lives. Conflict Management

SCIENCE

As they investigate the science units of study in kindergarten, students have opportunities to generate questions about their world, make observations, identify properties, compare and contrast, classify information, describe and explain their findings and understanding. "X" means the student explored scientific concepts through classroom activities.
